Re: **Math and Literacy Update**

On May 12th the Board of School Commissioners will hear a Literacy and Math update at their regularly scheduled meeting. The purpose of the update is not to review the entire math and literacy programs, but to give the Board and the community information about current initiatives and updates that are targeted at aligning with the Common Core State Standards (CCSS) and our ongoing improvement efforts.

Greg Schillinger will be present to discuss professional development in integrated math scheduled for this spring for our teachers in grades 7-12.

Josh Bunker, Math Department Chair, will be on hand to share information about programming and continuity in math for grades 6-8.

Lorraine Bargmann-Metz will be present to present information about the ongoing work to align our literacy efforts in grades K-6 with the CCSS and standards based grading.

As always, Board members with questions may call me directly.
